

U.S. Army Corps of Engineers Baltimore District's **UPDATED/REMAINING FY 2013** **Forecast of Contracting Opportunities (as of 28 October 2013)**

The Forecast of Contracting Opportunities (FCO) is a snapshot of the district's planned acquisitions for informational purposes only. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal, and is not a commitment by Baltimore District (NAB) to purchase the desired products and/or services. The requirements may or may not be executed and are contingent upon funding, real estate, permits and other factors that affect the requirements.

All acquisition strategies are subject to change based on market research and as the requirements are further defined. Requirements over the simplified acquisition threshold listed as "SBSA" means that the requirement will be set aside for small businesses, but the specific socioeconomic category has not been determined at the time of publication and will ultimately be determined by market research. Small businesses are encouraged to respond to NAB's Sources Sought Notices, a form of market research.

The projected quarters provided in the FCO are the estimated quarters NAB anticipates advertising requirements on the Federal Business Opportunities System (FedBizOpps) Web site, www.fbo.gov. These advertisements will be for all open market procurements greater than \$25,000. Please be aware that NAICS codes listed within are subject to change. Use code, DoDAAC "W912DR" to locate the district's requirements within FedBizOpps.

For more information on NAB's Small Business Office, visit the Web site at: www.nab.usace.army.mil/Business/Small%20Business/.

Acronyms	
A/E: Architect and Engineering	MCA: Military Construction Army
